

HIPAA SEAL OF COMPLIANCE

STELLAR IS HIPAA CERTIFIED

Stellar has attained the coveted HIPAA Seal of Compliance after a rigorous verification of the requisite practices & policies by the **Compliancy Group**, the industry leader in HIPAA compliance. Stellar underwent an extensive review of its internal mechanisms for handling Personal Health information (PHI) in compliance with HIPAA regulations. HIPAA Seal of Compliance is a strong endorsement of Stellar's capability to handle sensitive information in line with global regulatory standards for data privacy and protection. The Seal reinforces our organization's credentials as a trusted solution provider to meet the Data Recovery, File Repair, Conversion and Media Sanitization needs across health industry and comply with HIPAA data privacy obligations.

THE REVIEW PROCESS

The Compliancy Group is a leading HIPAA compliance audit and certifying organization that rigorously tests healthcare professionals and service providers regarding effective implementation of HIPAA compliance programs. In absence of any HIPAA certification from the federal government, enterprises dealing with PHI, around the world reach out to third-party organizations, such as The Compliancy Group, to get accredited for HIPAA compliance. The Compliancy Group performed a comprehensive review of Stellar, analyzing the organization's policies, internal mechanisms, and practices for safe data storage and data handling. It took several months of rigorous performance measurement and employee training on the requisite policies to achieve the **'HIPAA seal of Compliance'**.

HIPAA PRIVACY RULE

The HIPAA privacy rule emphasizes the need to protect individuals' medical records and Personal Health Information (PHI) in any type of electronic, paper or oral communication. It restricts any impermissible use or disclosure of PHI to protect it from undue exposure, breach and misuse.

BE HIPAA COMPLIANT

Enterprises, government entities and small businesses dealing with PHI all over the world can trust Stellar's Product & Services to make their organization HIPAA compliant especially when managing the PHI data. The HIPAA Seal of Compliance is one of our accreditations, reinforcing the credibility of our data security & privacy policies and procedures.
